Dear John,

Reur 10/17, I have no recollection of it at all.

But from some of the signatories and ffom the content it has to have been fairly early, perhaps before her book was published.

Sylvan Fox's book came out in late 1965, McDonald's ~~but in 1966 McDonald's~~ article then or in early 1966. Maybe early 1965. Epstein's book on late June 1966. Dudman and Rovere in the media then or earlier. Shirley Marin left in about 1967. And some of the names mean nothing to me.

It may interest you that Marjorie Field had been a movie star, Marjorie ~~xxxx~~ Beauchamps and she was ~~managed~~ married to the manager of a Wall Street firm, Joe Field.

Glad you had access to the Meagher archive at Hood, but with you in Colorado and it here in Frederick, how did you do that?

One of the reason I say that was probably early is that rather soon much more was kmown on that point and that she had not had time to spot it..

Best,

Harold
